Dear Carol

SYFA Quality Mark Development Award

I am writing to you on behalf of the Dean Tavern Trust to congratulate the Star 'A' CYP on achieving the Scottish FA Quality Mark Development Award.

Football brings people of all ages and all nationalities together under one banner. It is a universal language for people all over the world for adults and children, men and women.

On a local level playing football with an organised club as you know has many benefits. The fundamental benefit for young people is health and well being. A deep rooted ethic of discipline and team work from an early age can help a young person to achieve and succeed and will yield constructive benefits to their community. It is more than just a game it is a sport that provides aspiration, confidence, team working and a more positive attitude that helps our children to grow up healthy, fit and full of self esteem and can help keep them away from the more distasteful aspects of life.

Just as important are the hard working and committed volunteers who care are about the sport, its ethics and the young people whom they organise and instruct.

This award is a great achievement for the Star 'A', for the young people who play and for the adults who train our young people. It is also a great achievement for Newtongrange and I am sure the parents and guardians are thrilled at this well deserved accomplishment.

The Dean Tavern Trust finds it rewarding and fulfilling to support an organisation like the Star 'A' and it is also humbled by the dedication of all involved. The Trust is also proud to think that our contribution may have helped the club in some small way to realise this impressive award.

Once again congratulations

With Regards

Wilma Chalmers
